TITLE: _____

CHATEAU de VIE FIVE

It is very important for applicant to understand that approval of this modification is restricted to the changes requested. Approval in no way negates a homeowner's obligation or responsibility to obtain all appropriate or necessary permits from any governing agencies with respect to construction codes or other restrictions that may apply. Caution should be used in all cases. Using a licensed and bonded contractor is recommended. Should you not be sure of the requirements, it is mandatory that you contact the City of Scottsdale Building Permit Department for instruction and direction. The association requires due diligence by the applicant and will hold application responsible for any adverse effects which may be sustained by the association as a result of the modification.

In addition, it is understood that the owner of the property named in the application, is responsible for all maintenance on the improvement and may be responsible for restoring to original properly maintained condition the improvement so identified, at the discretion of the homeowner's association.

The association has written specifications for some routine improvements. These specifications must be followed precisely. Any deviation may be subject to total removal by the homeowner's association at the expense of the homeowner. Any legal action that is required to enforce restrictions and/or specifications will be charged against the applicant/homeowner's account.

Any changes to the originally approved architectural modification must be reviewed and approved by Chateau de Vie Five prior to the change being made.

I/We have read, understand, and agree to comply with all the requirements involved in our architectural modification and hold harmless the Chateau de Vie Five Townhouse Association.
